

BUTRINT PLLANA

Software Developer & Project Manager | Frontend Engineer (React.js / Next.js / TypeScript)

butrint.pllana@gmail.com · [linkedin.com/in/butrint-pllana](https://www.linkedin.com/in/butrint-pllana) · github.com/butrintpllana · www.butrint.xyz · Prishtina, Kosovo

PROFILE

Software Developer with 3+ years of experience building scalable digital platforms and business software solutions using React, Next.js, and TypeScript. Experienced in taking products from architecture to production while also leading teams, managing operations, and supporting business growth. Combines hands-on technical expertise with leadership and product thinking, bringing value across development, team coordination, and business execution..

EXPERIENCE

Software Developer & Project Manager

Mar 2023 – Mar 2026

Kosovo Advisory Products and Systems · Full-time · On-site · Prishtina, Kosovo

Key products: TPMready · KAPcourse · KAPsurvey · KAPorg

- Owned TPMready, an enterprise third-party monitoring platform, from architecture through production.
- Led KAPcourse (e-learning platform) as Project Manager and part-time developer; contributed to KAPsurvey and KAPorg.
- Maintained and developed additional web projects, including affiliate landing pages, marketing websites, and internal support tools.
- Built and managed a cross-functional team of 30+ developers, designers, DevOps engineers, and operations staff.
- Led full recruitment lifecycle — sourcing, interviewing, evaluating, and onboarding technical and non-technical hires.
- Drafted contracts, established operational workflows, and drove strategic decisions as de-facto head of the affiliate.

Intern Software Developer

Oct 2022 – Dec 2022

Primex EU · Internship · On-site · Fushe Kosove, Kosovo

- Developed and maintained web applications (Homeface e-commerce platform) using PHP/Laravel and Vue.js.
- Performed server maintenance, monitored critical services, and managed backup jobs using VEEAM; handled MSSQL database operations.

FEATURED PROJECTS

Bifrost — *Multi-Role B2B Commerce Platform* (React.js, .NET Core, SQL Server Tailwind CSS)

- Architected role-based experiences for buyers, distributors, sales teams, warehouse staff, drivers, and admins.
- Built order workflows (creation, approval, fulfillment, tracking) and a scalable, reusable frontend architecture.

Sales Management System — *Contract & Payment Platform for Property Sales* (React.js, .NET Core, Tailwind CSS)

- Built role-based interfaces for managing contracts, customers, properties, and flexible payment plans.
- Implemented payment tracking and reporting tools for real-time visibility into sales performance.

News Portal — *Full-Stack Publishing Platform* (React.js, TypeScript, .NET 8, SQL Server, Docker, Nginx)

- Built a full-stack CMS with publishing workflows, role-based auth, and a separate public-facing portal.
- Containerized the platform with Docker and added analytics for engagement and ad performance.

File Management System — *Private Document Platform for Telecoms Contractor* (React.js, .NET Core, SQL Server, Tailwind CSS)

- Designed a hierarchical file system with role-based access control and secure, expiring share links.
- Built advanced search and filtering to manage contracts, invoices, and field documentation centrally.

TECHNICAL STACK

FRONTEND - HTML · CSS · JavaScript · TypeScript · React.js · Next.js · Tailwind CSS

BACKEND - Node.js · .NET Core · REST APIs

DATABASE - MSSQL · MySQL

CMS & LMS - WordPress · Moodle

PROJECT MANAGEMENT - Agile · Scrum · Team Leadership · Product Ownership · JIRA

AI & DEVELOPMENT TOOLS - Claude · Cursor · ChatGPT · AI-assisted development · Prompt engineering · Full-stack application prototyping
